

Just like spring, renovation is rejuvenation. At Delta, whether altering a home's layout for better flow, updating the bath or improving the functionality of the kitchen, we know our client is driven by the desire to enhance their daily life. While design and function are significant motivations, increasing the value and character of one's home has found a greater level of importance. No matter how big or small the remodel, the investment is a toast to the future.

This kitchen packs a mean punch at just 200 square feet incorporating a magic corner, roll-out shelves, silverware inserts, spice pullouts and a wine rack. The backsplash is a beautiful marble mosaic pulling together all these elements with outstanding richness. Truly a diminutive space that has it all.
